AMISTCO® RASCHIG RING PACKING

AMISTCO® Raschig Ring Packing (ARRP) is proven in a wide range of mass transfer applications. A full range of Raschig Ring sizes and materials are available to tackle a wide range of separation applications. Raschig Rings have a long history of improving separation efficiency in applications including:

- Petrochemical distillation and extraction applications
- Absorption in gas processing and combustion plants
- Desorption in water treatment

The AMISTCO® Raschig Ring structure provides one of the largest surface areas among tower packing options and handles heavy loading, process upsets and temperature shocks.
